

Mission

Our aim is to encourage business-to-business networking within Australia and bilateral trade between Australia and Israel, which we have been doing successfully since 1970.

Upcoming CEO Luncheons

CEO Luncheon – 'Share the Vision' Series
Wednesday 24 September
12.00 noon to 2.00pm
Adelaide Festival Centre

Hon Karlene Maywald MP
Minister for the River Murray
Minister for Water Security

'COAG Agreement and Murray Futures'

Karlene is currently the Minister for the River Murray and the Minister for Water Security. She has held several other portfolios during this time including Minister for Consumer Affairs, Minister for Science and Information Economy, Minister for Regional Development, Minister for Small Business and the Minister Assisting the Minister for Industry and Trade. Karlene is passionate about restoring the health of the River Murray and ensuring water use from the river is sustainable. She believes over-allocation of water interstate must be addressed as a priority to return water to the system for environmental flows. As part of her present ministerial responsibilities, she is managing the South Australian Government's immediate response to the current extreme drought in the Murray-Darling Basin and its impacts on the river environment and local communities.

At the same time, she is overseeing \$3.6 billion in investment in water security projects in South Australia. This includes a desalination plant at Port Stanvac to supply one-quarter of Adelaide's water needs, doubling the storage capacity of the Mount Lofty Ranges reservoirs, and further increasing our capacity to reuse recycled water and stormwater. She is also overseeing delivery of the State-Commonwealth partnership project, Murray Futures, which will support communities and help them to adapt to a future of reduced water availability and climate change.

CEO Lunch
Tuesday 14 October
12.00 noon to 2.00pm
Sebel Playford

Dr Musimbi Kanyoro
Director, Population Program
Packard Foundation, USA

'Business can contribute to making globalization work for people: what is the ask?'

Dr Kanyoro will be addressing the Inaugural UniSA Nelson Mandela Lecture on 'Ethical Globalization: A Vision of a World Where Benefits Accrue to All'

Dr Musimbi Kanyoro is the Director of the Population Program at the David and Lucile Packard Foundation. The Population Program is dedicated to reproductive health and to the integration of those services with critical global health issues like HIV/AIDS as well as other education and development issues.

From 1998-2007, Dr Kanyoro served as General Secretary of the World YWCA, an umbrella organization whose members are national YWCAs in 125 countries with an outreach to 25 million women and girls and their families in 3000 communities. As General Secretary, Dr Kanyoro was responsible for the oversight of the largest women's membership organization in the world working closely with global leaders from other non-governmental organizations, governments, the World Bank, United Nations agencies, businesses and faith-based institutions. Her role included public speaking, participation in high level delegations, political negotiations, strategic thinking forums on global issues, convening events for members and partners, and management of staff and assets of the organization. During her tenure, Dr Kanyoro led the organization to prioritize Women's reproductive health with special focus on HIV and AIDS, and on young women and girls.

The Region

McLaren Vale

This wine region is regarded worldwide as an ultra premium viticultural district. It's climatic conditions are suited generally for the red grape varieties, particularly shiraz. Ballast Stone has 50 hectares of vineyards in McLaren Vale, including some planted as early as the 1940's.

STAR RATINGS ★★★★★

Three, Four and Five Star ratings are signs of excellence in fruit quality and winemaking skill. All wines are judged 'blind' by wine industry professionals and are compared in peer classes by three judges.

FUJI xerox

A leader in knowledge management, Fuji Xerox Australia provides an array of solutions to maximise the use of corporate knowledge. Recognising the value of documents in knowledge sharing, Fuji Xerox has developed software, services and hardware that enable organisations to capture and share knowledge in a workflow that crosses the boundaries between the paper and electronic realms.

Our technology initiatives – printers, document management software, copiers, scanners and fax machines – all drive the consolidation and convergence of historically separate document information opening new avenues of communication and knowledge sharing, resulting in powerful new business solutions.

Our services – for example our world-leading outsourcing arm, the Document Services Group – bring convergent document workflow to clients, managing their document processing, saving them money and freeing them to focus upon their core competencies.

Our software solutions – covering CRM, knowledge management, output management, electronic forms and Internet publishing – enable users to share knowledge online, on paper, anytime, anywhere.

As the champions of convergent document technology, Fuji Xerox will continue to provide solutions that bridge the paper and digital worlds and enhance business productivity through the sharing of knowledge.

Richard and Marie Shaw planted 5 acres of vines in McLaren Vale in 1975. Since that time, their plantings have expanded to 155 acres in McLaren Vale and over 1000 in Currency Creek. Ballast Stone Estate at Currency Creek, with extensive winemaking facilities and cellar door, was established in 2001.

The Shaw family sought to appoint a winemaker who shared both their passion and ethos for taking a 'hands on' approach to winemaking, with an understanding that the greatest wines begin in the vineyard. Their search ended with the appointment of well-known veteran winemaker John Loxton and with expansion, Martyn O'Flaherty joined the team in 2006.

Currency Creek is situated only 4 kilometres from the Southern Ocean and adjacent to Lake Alexandrina. This cool maritime climate promotes a prolonged ripening period, resulting in fruit with distinct lifted varietal definition and elegant complexity.

Ballast Stone Estate produce four labels, namely Steeple Jack, Stonemason, Ballast Stone Estate and Emetior and these wines are distributed throughout Australia. They also grace tables in the USA, England, Canada, China, Singapore, Cyprus, New Zealand and Fiji.

How can Fuji Xerox help your business become more sustainable?

Fuji Xerox provides a solution that meets both business and environmental needs. We can help you minimise both the business and environmental cost of document production and management.

Our equipment features environmentally responsible design and energy efficient enhancements. With Fuji Xerox you can increase productivity and efficiency by making it easier to access and share information across your organisation.

Why are our products the benchmark in sustainability?

Fuji Xerox has been recognised as a leader in sustainability by creating innovative, energy saving devices and taking all our products back at end of life.

Our sustainability initiatives include:

- Re-using parts to avoid 15,500 tons of carbon emissions in 2007 alone.
- Winning Japan's Grand Prize for Energy Conservation for 9 consecutive years.
- New generation products that reduce energy consumption by up to 71%.
- An 'Extended Producer Responsibility' program, whereby we achieve over 99% resource recovery from returned products.
- Committed to achieve 100% Green Power™ at all Australian facilities by 2011.
- A cartridge recovery program to reduce landfill and conserve natural resources.
- ISO 14001 certification for all Australian operations.

Dr Ian Gould

New Chancellor of UniSA

The University of South Australia is pleased to welcome Dr Ian Gould as its new Chancellor.

Dr Gould is a geologist and has had a long and distinguished career in the Australian minerals industry, having held top executive positions in companies such as Comalco, Rio Tinto and Normandy Mining. He is a past President of the Australasian Institute of Mining and Metallurgy

and is at present Chair of the CSIRO Minerals Sector Advisory Committee and the SA Minerals and Petroleum Expert Group, a Member of the SA Resources Industry Development Board and Chair of Toro Energy Ltd.

Dr Gould's broad portfolio of corporate governance activities reflects his interests in community and environmental responsibility and the special importance to Australian industry and society of education, science and research and sustainable development.

He has been involved in the governance of the Royal Flying Doctor Service for over 17 years, including as National President in the 1990s. Amongst other positions, he is also the current Chair of the Board of St Andrew's Hospital and Chair of the Council of the Australian Institute of Marine Science, a Commonwealth Government organisation established to better understand and protect the tropical marine environment, including Australia's Great Barrier Reef.

Dr Gould's interests, experience and history of community engagement fit well with the focus of a modern university, like UniSA.

with the AICC

The Australia-Israel Chamber of Commerce (AICC) is Australia's pre-eminent Chamber of Commerce and one of the country's most prestigious and active business networking organisations. The AICC exists to meet the needs of businesses either by increasing business opportunities of our members within Australia or by increasing bilateral trade between Australia and Israel.

The AICC enjoys a unique position in the Australian business community through its ability to attract the nation's most prominent business and political leaders as both speakers and event attendees. The AICC leverages this extraordinary business network to deliver its members a strong commercial return, both in terms of targeted business promotion and personal access to relevant decision makers.

Established in 1970, the AICC is a national organisation with offices in Adelaide, Sydney, Melbourne, Brisbane and Perth, as well as in Auckland and Tel Aviv. Each of these offices manages an extensive and impressive member network and event series to enhance non-partisan business networking at senior levels and vigorously promotes bilateral trade through inbound and outbound trade missions. Each State Chamber has its own particular benefits, terms and conditions and costings for Membership.

In South Australia the AICC hosts over 60 events per year. Our Major Business Luncheons regularly attract 250+ corporate business leaders. In addition to these lunches, and due to popular demand, we have been organising more smaller events such as our CEO and Up Close & Personal Events, Boardroom Lunches, Seminars and Member Only Events with an attendance of 20 to 100 people that provide quality business networking opportunities and more personal interaction with our guest speakers.

Membership of the AICC is open to any individual or organisation that wishes to join.

Membership of AICC also gives you access to our Young Business Forum (YBF). YBF provides an insight into young business people in South Australia and is committed to fostering the growth of tomorrow's corporate leaders through valuable networking forums and programs. YBF comprises of individuals aged 20-35 from diverse industry sectors who want access networking and development opportunities at an early stage in their careers.

To join the AICC in South Australia please contact:

2006 Cabernet Sauvignon

In the 1800s Goolwa was the most important river port in South Australia linked by rail to Port Elliot, where sailing ships unloaded ballast stone to refill their holds with wool and grain for their return trip to England. Buildings on Ballast Stone Estate Vineyards are made from this stone.

This soft, full bodied, fruit driven wine exhibits the aromas of mint chocolate and vanillin oak which carry through to layers of berry fruit and fine tannins on the palate.

ALCOHOL	14.5%
VARIETY	100% Cabernet Sauvignon
GROWING REGION	McLaren Vale
pH	3.51
TA	7.13

2006 Shiraz

In the 1800s Goolwa was the most important river port in South Australia linked by rail to Port Elliot, where sailing ships unloaded ballast stone to refill their holds with wool and grain for their return trip to England. Buildings on Ballast Stone Estate Vineyards are made from this stone.

Robust forest berry fruit characters with lingering peppers and fine tannins.

ALCOHOL	14.5%
VARIETY	100% Shiraz
GROWING REGION	McLaren Vale
pH	3.53
TA	6.92
